

Dear participant,

Let me first start by thanking you for your interest in participating in the workshop. We have already a list of participants for the workshop including condensed matter physicists, experimental, theoretical and computational, as well as mathematicians. We are happy with the diverse group we have gathered and we expected very interesting discussions and interactions in the event.

#### REGISTRATION

where the arrival and departure information will be saved and organized. The information written on the Wufoo form will be the one used for the hotel reservations.

#### HOTEL

IMSA staff will take care of the hotel reservation. Make sure you register using the Wufoo form since the dates written there will be the ones used for the reservation.

All participants will stay in the same hotel, but depending on availability IMSA staff will choose the appropriate hotel.

#### SCHEDULE OF SPEAKERS

We will organize the schedule of the speakers once we know the arrival and departure date of each one. This way we will make sure that everybody is scheduled whenever they are present in Miami.

If anybody has a special request, please do not hesitate in asking Rafael or me.

I will start requesting titles and abstracts two weeks before the event.

Should you have any questions, do not hesitate in contacting us.
